

FEDERAL EXECUTIVE CYBERSECURITY SEMINAR

Data Breaches. Cybercrime. Insider threats. Cyber espionage.

The headlines are riddled with reports of cybercrime being committed against the Federal Government and American companies and citizens every day. Cyber issues are so pervasive that it is imperative our senior leaders have a good working knowledge to make informed decisions even if their role is not specifically focused on the cybersecurity mission area.

Enter—the **Federal Executive Cybersecurity Seminar**, designed to help senior leaders develop the necessary baseline to engage confidently and successfully on cyber issues. Provided by the Department of Homeland Security through the FedVTE Live! program, the seminar is offered at no-cost and addresses the threats the United States faces in the cyber environment, with a focus on the strategic dimensions and current policies that govern actions.

Audience: Members of the Senior Executive Service and those on a leadership career track (typically high-performing GS-15s).

The learning objectives of the seminar include:

- Familiarity of cybersecurity challenges through the conduct of a high-level cyber response practicum
- Familiarity with the cyber environment and evolution including unique aspects and complexities
- Understanding the policy and authorities landscape as well as key roles and responsibilities
- Familiarity with cyber operations

Students can attend the half-day seminar—either a morning or afternoon session—on one of the following dates:

- March 15, 2016
- April 6, 2016
- May 24, 2016 (*virtual sessions)
- June 15, 2016
- August 30, 2016

Seminar Location:

*Homeland Security Acquisition Institute (HSAI)
90 K Street NE, Suite 1200
Washington, DC 20002*

**The seminar sessions on May 24 will be held remotely in a virtual world for those outside the National Capitol Region.*

Class sizes are small and are expected to fill-up quickly. Participants should submit the registration form at least *three weeks prior* to the selected course date to: FedVTELive@hq.dhs.gov
